

IDNDR Secretariat Contributions

The IDNDR Secretariat has been supporting National IDNDR Committees and individuals with materials on request. We also sent out three massive mailings, starting with the first in June, announcing the topic of the Day and including information on up-coming Conferences and activities in the region. The last massive sending included the booklet *Cities at Risk*, the Newsletter "IDNDR Informs, special topic" and a sticker produced by the Office on the CITIES AT RISK theme.
