

# KNOWLEDGE IS SAFETY

Ala Wai Yacht Harbor, Honolulu, Hawaii. Withdrawal of water caused by tsunami generated by earthquake of November 3, 1952, in Kamchatka, Russia. The spectators in this picture are needlessly risking their lives and should be evacuating to higher ground. (Honolulu Star-Bulletin)

**A**s dangerous as tsunamis are, they do not happen very often. You should not let this natural hazard diminish your enjoyment of the beach and ocean. But, if you think a tsunami may be coming, the ground shakes under your feet or you hear there is a warning, tell your relatives and friends, and

**Move  
Quickly  
to Higher  
Ground!**

North Shore of Oahu, Hawaii. During the tsunami generated by the March 9, 1957, Aleutian Island earthquake, people foolishly searched for fish on the exposed reef, unaware that tsunami waves would return in minutes to inundate the shoreline. (Honolulu Star-Bulletin)
