EMERGENCY
MEDICAL
TREATMENT
REVIEW PROBLEMS FOR EMTs**

NANCY L. CAROLINE, M.D., Visiting Associate Professor
of Critical Care Medicine, University of Pittsburgh School
of Medicine, Pittsburgh

An integral part of Dr. Caroline's educational package for EMT training programs, this **WORKBOOK** is directly correlated to **EMERGENCY MEDICAL TREATMENT: A Text for EMT-As and EMT-Intermediates**. Used together, these books meet the USDOT curriculum requirements for courses leading to the EMT-A certification and to the nationally suggested EMT-Intermediate certification.

The **WORKBOOK** tests the student's comprehension of the material covered in each chapter of the textbook through a series of carefully chosen questions. Four "Stop and Review" sections are included at intervals to evaluate the student's retention of material covered much earlier.

Whether used strictly as an adjunct to the textbook, or as a review book for EMTs preparing for certification examinations, the **WORKBOOK** is a practical, important part of any EMT's basic education.

WORKBOOK questions...**

**ANSWER BOOK FOR WORKBOOK IN
EMERGENCY MEDICAL TREATMENT:**

Review Problems for EMTs

By Nancy L. Caroline, M.D.

Under separate cover, the **ANSWER BOOK** contains the solutions to all the questions in the **WORKBOOK**, and also gives thorough explanations of why wrong answers are incorrect.

151 pages. Paperback, #128740

**And the text for which the
WORKBOOK and ANSWER BOOK
were written...**

EMERGENCY MEDICAL TREATMENT:

A Text for EMT-As and EMT-Intermediates

By Nancy L. Caroline, M.D.

Following the USDOT requirements for EMT certification, **EMERGENCY MEDICAL TREATMENT** emphasizes a step-by-step approach to basic life support and emergency procedures in the prehospital phase.

581 pages. Paperback, #128724
