

Piggots - traditional timber house well-provided with shutters.

Potters - undamaged clinic.

2.8 Parham Clinic

Personnel:

- Community Health Aide - Iris Gordon

Damage:

- Flood waters entered through a crack in the wall to the toilet and through the breeze blocks
- Door flew open during Luis allowing in water

Utilities:

- Main's water - intermittent
- Telephone - working
- Power - off

Observations:

- Concrete frame and roof slab
- No structural damage

2.9 Pares Clinic

Personnel:

- District Nurse - Ms D Charles (also the District Nurse for Glanvilles and Seaton)
- District Nurse - Ms L Carmichael

Damage:

- Ingress of storm water

Observations:

- There were broken windows before Luis
- There were recent roof repairs (before Luis) as evidenced by the different colour sheets.

Parham - undamaged clinic with reinforced concrete roof.

Pares - recent repairs were done to the roof.

2.10 Wilikies Clinic

This building suffered moderate damage.

Personnel:

- Public Health Nurse - Miss Roberts (not present)

Damage:

- Part of roof covering came off
- A lot of water entered the building

Observations:

- There was a considerable degree of dilapidation before Luis
- This building is owned by a Trade Union and is rented to the Government.
- The building has the potential for an historic restoration project. The owners should be encouraged to seek assistance for this. -

2.11 Newfields Clinic

Personnel:

- Nurse - Ms Wong (absent)
- Watchman - Mr Frank Thomas

Utilities:

- Electricity - off
- Telephone - working
- There is a water tank but there is no pump. Also, the tank leaks.

Observations:

- No structural damage
- Water entered under the front door.
