## SPECIAL REPORT

### MINE ACTION 2000

The object of this *Special Report Mine Action 2000* is to give an overview of ICRC preventive mine activities (humanitarian diplomacy, protection and mine awareness) and mine-victim assistance (curative care and physical rehabilitation) carried out in 2000.

It was designed to satisfy the narrative reporting requirements of donors who have contributed to the *ICRC Special Appeal Mine Action 1999 - 2003* launched in June 1999. Financial reporting requirements of donors (statement of contributions and expenditure for the year 2000) will be met by a separate KPMG Auditors' report on supplementary information on the *Special Appeal*.
