

PART 8

PHASE IIIA :- WARNING

- | | |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Com. of Police | <ul style="list-style-type: none"> - assign personnel to provide security force to protect property and to guard against potential vandalism; - prepare to erect emergency directional and detour signs as called for under evacuation and traffic control plans; - assign security personnel to protect key areas such as hospitals, air and sea ports etc.; - prepare to arrange hoisting of warning flags; - check auxiliary generators and other power and lighting equipment; - contact members of Emergency Control Teams on request of Chairman CERO to set up E.O.C. |
| Ch. of Staff/
BDF | <ul style="list-style-type: none"> - assist police in security measures at airport etc. |
| P.S./M.C.W. | <ul style="list-style-type: none"> - check auxiliary generators and other power and lighting equipment. |
| P.S./M.E.A. | <ul style="list-style-type: none"> - advise B'dos Overseas Missions of impending hurricane. |
| Ch. Education
Officer | <ul style="list-style-type: none"> - advise Headteachers and Senior Shelter Wardens to stand-by to close or open schools as necessary. |
| P.S./MAFCA | <ul style="list-style-type: none"> - arrange for loading of food supplies on to trucks for delivery when necessary to areas most likely to be cut off in in a hurricane. |
| Tech.D/Aviation
Airport Manager | <ul style="list-style-type: none"> - Issue NOTAM for closure of airport. - inform airline managers, government agencies and concessionaires about closure. |

- Fisheries O.
- to check lashings of boats in the Careenage;
 - to warn again not to cook nor smoke on board the boats;
 - to see that, if possible, boats on the Port Authority's property are lashed down with the bow in the expected direction of the wind;
 - to request by radio all fishermen to check that their boats are as safe as possible and that fishing gear is in a safe place on land;
 - to advise that no fishing vessels should be in the Outer Basin of the Careenage and that any who remain in do so at their own risk;
 - to send Fisheries Department staff to their home, if the emergency occurs during working hours and to instruct them to return to the Pierhead as soon as the all-clear is sounded or they hear such instructions on radio;
 - to send the Fisheries tractors and the landrover, previously stocked with fuel, fresh water, spare parts, tools and rope to a place of safety well inland to await the passage of the hurricane.

PHASE IIIB :- TWO HOURS BEFORE HURRICANE STRIKES

- | | |
|------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chairman, C.E.R.O.
E.Control Team I | - Report to Emergency Operations
Centre, Police Headquarters.
(see Part 9) |
| All Perm Secs.
and Heads/Depts | - ensure that communication between
key personnel and Emergency Opera-
tions Centre is adequate;
- put emergency operations plan
into action, as directed. |
| Ch. Ed. Officer | - arrange for opening of shelters. |
| Rediffusion
C.B.C. | - move mobile broadcasting equip-
ment to the Emergency Operations
Centre, Police Headquarters. |
| Boy Scouts
Girl Guides
C.L.Brigade
A.Y.P.A. | - report to their headquarters or
other station as instructed in
accordance with prearranged
assignments. |
| Amateur Radio
Society | - take up position at prearranged
points (see Part 11) and at such
other points as are requested by
E.C.O. |
| B.C.B.R.A. | - report to hurricane shelters and
first-aid stations with assignments
as prearranged. |

PART 9

THE EMERGENCY OPERATIONS CENTRE

9.1. In the event of a hurricane threat (or threat of any major disaster) an Emergency Operations Centre will be set up to coordinate all emergency services and activities and to supervise all communications to the public. The Centre will be set up in the Control Room of Police Headquarters on Coleridge Street and will be manned by three teams working in rotation. The teams will be constituted as follows:

Team 1

Chairman, CERO	-	Emergency Control Officer 1
Ch. Estab. O.	-	Asst. E.C.O. 1
Ch. Electoral O.	-	Liaison Officer 1
D. Stat. Services	-	Intelligence Officer 1
Ch. I. O.	-	P.R. Officer 1

Team 2

Dep. Chairman, CERO	-	E.C.O. 2
P.S. Finance	-	Asst. E.C.O. 2
Ch. Com. Dev.	-	Liaison Officer 2
Ch. T. P.	-	Intelligence Officer 2
Sen. I. O.	-	P.R. Officer 2

Team 3

Ch. Personnel O.	-	E.C.O. 3
P.S., M.A.G.	-	Asst. E.C.O. 3
Dep. C. El.O.	-	Liaison Officer 3
D/ Data Processing	-	Intelligence Officer 3
I.O.	-	P.R. Officer 3

9.2. These teams will be supported by the Heads of the following services or by Senior Officers assigned by them: Police, Fire, Health, Education (shelters), Public Utilities.

9.3. Other members of these services like other members of the Public Service will report at their headquarters or at such other stations as has been pre-arranged by the Heads of the respective services according to the departmental plan.

Arrangement of duty

9.4. Team 1 will assemble at Police Headquarters approximately two hours before onset of hurricane and should be relieved four to six hours after the "All Clear" Signal. Subsequently, each team will work in eight to twelve hour shift - the actual times of relief being agreed by the Emergency Control Officers in the light of existing circumstances.

Functions of Control Teams

- i) To get such Cabinet directives as may be necessary;
- ii) to give general directives on emergency control operations;
- iii) to keep full record of all damage and all action taken or ordered;
- iv) to regulate the release of information about the state of affairs.

Action - Before the Impact

9.5. Team 1 will:

- 1) ensure that all key personnel have been alerted (Medical Services, Public Works etc.);
- 2) notify every Permanent Secretary of the impending disaster and instruct him to inform his staff and to activate their respective plans;
- 3) ensure that individual agencies have activated respective disaster plans;
- 4) ensure that there are adequate means of communication between the Control Centre and key services;
- 5) liaise with C.B.C. and Rediffusion Service, instructing them to move their mobile broadcasting equipment to the Control Centre from which thereafter all broadcasts to the public will be issued;
- 6) issue instructions, warnings and other information to the public;

- 7) alert members of Cabinet to stand by in case there is a need for emergency legislation;
- 8) alert voluntary organisations;
- 9) test radio-communication services offered by members of Amateur Radio Society and C.B. Clubs and that they are in their assigned positions;
- 10) ensure that Cable & Wireless are alerted and prepared to assist in external communication.

Action - During the hurricane

9.6. The team will collect information as far as possible on the extent of damage being done, such as:-

- disruption of utility services;
- any threat of fire;
- any accidental release of toxic, caustic or other noxious chemicals.

It will therefore determine critical problem areas and those which are likely to be threatened. This Centre, under the control initially of Team 1, will provide reliable and continuing direction and coordination of all emergency operations. It will therefore be necessary to maintain a very close surveillance of the situation and to maintain a central point of contact where individuals can also get information regarding danger areas, traffic movement etc.

Action - After the hurricane

9.7. The team will -

- 1) instruct issue of the all clear signal after consultation with D/Met. Services;
- 2) phase out emergency operations;
- 3) coordinate communication with the outside world, making requests for supplies and assistance as necessary;
- 4) reduce or remove restrictions in disaster areas;
- 5) prepare reports for press and for official records.

PART 10

DURING AND IMMEDIATELY AFTER THE HURRICANE

10.1. During and immediately after the hurricane, all agencies will be involved in carrying out, as far as possible, their respective emergency plans. These activities will be geared toward:

- provision of supplies to those in need;
- provision of security measures to protect people and property;
- rescue and evacuation procedures wherever necessary;
- keeping the community calm in the face of a disaster;
- provision of emergency communications where normal channels have broken down;
- assisting District Emergency Organisations with clearance of roads;
- collecting and collating information concerning damage to life and property.

10.2. A quick and efficient collation of information and statistics is imperative following a disaster. This enables the authorities to make as accurate an assessment as possible in order to request assistance from external sources, to coordinate rehabilitation activities and incidentally to gain some insight into the weaknesses of existing disaster plans.

Responsibilities

- | | |
|---------------------------|-------------------------------------------------------------------------------------------------------|
| Ch. Tech. O / M.C.W. | - clearing of roads made impassable by the disaster; |
| Govt. Electrical Engineer | - removal of debris, trees etc. posing danger to houses or to utility poles and wires; |
| Ch. Fire O. | - evacuation of persons from premises partly damaged or in otherwise potentially dangerous positions; |

- Ch. Fire O. - pumping off of flood waters.
- B. D.F. - provision of small boats or other equipment to assist in rescue operations;
- coordinate work of volunteer private boat owners;
- assist with road clearance;
- supervise volunteer road clearance workers.

- Transp. Board)
- W.W.D.)
- Tel. Co.)
- B'dos L & P Co.)
- Nat. Gas Corp.)
- restoration of use of utility services as soon as possible.

- P.S./ Housing - repairs to houses
- Nat.Housing Corp. - erection of temporary shelters as required.

- D/Stat. Services - coordinate the collection of damage statistics and other information to be submitted to the Emergency Control Officer;
- estimate funds needed for rehabilitation;
- communicate information to emergency operations teams and to the G.I.S.

- CIO/GIS - prepare and issue all press releases;
- keep PSMEA informed.

- Fisheries O. - at "all-clear" to require all members of staff to report for duty immediately - whether day or night, and to give instructions regarding the re-launching of the fishing fleet and the salvaging of smitten vessels - all ranks being required to give physical assistance if necessary;

- to call on fishing boat owners and crews by radio to return to their normal task of providing the community with fish as soon as conditions safely allow and to inspect their boats with extra care before going to sea;
- to debrief all fisheries staff and to see whether any lessons have been learnt from the way in which the emergency was conducted;
- to call on all fishing boat owners and fishermen to report damage as early as possible to the Fisheries Officer.

Airport Manager
Tech. Dir.(Avia-
tion)

- Restore airport to normalcy as soon as possible;
- keep ECO/CERO informed on ETA's of relief aircraft.

Parks & Beaches
Commission

- Assist Health & Welfare Services with transport;
- assist M.C.W. and BDF with road-clearance;
- assign employees who are island constables to aid security forces.

Customs

- expedite deliveries of relief goods consigned to Min. of Health, Welfare Dept., Red Cross Society or CERO in accordance with the conventions of the Customs Cooperation Council (Brussels).

All P.S's; H.D's

- prepare report of damage done to government property and submit to D/DSS.

PART 11

COMMUNICATIONS

11.1. The Emergency telecommunications centre is located in the Control Room, Police Headquarters, where there is VHF equipment linked to the eighteen (18) Police Stations around the country and the police mobile patrol units as well as control points for the Amateur Radio Society and a Citizen's Band Base Station.

Amateur Radio Society

11.2. The Amateur Radio Society has agreed to assign members to various areas including the following:

Government Headquarters
Ministry of Agriculture
Ministry of Communications & Works
Red Cross Society
Police Headquarters, Coleridge Street
Airport terminal
Meteorological Office
Fire Service Headquarters
Bridgetown Harbour
Ministry of Health
Ministry of Education
Transport Board Depots

The Barbados Defence Force will arrange to establish links with Police Headquarters. In case of a hurricane it is expected that, where possible, members should take up their position two hours in advance of the estimated time. They will thus provide communication between Police Headquarters and the points listed above just before, during and immediately after onset.

11.3. Cable and Wireless will provide an emergency voice link between Wildey and Police Headquarters.

Citizens' Band

11.4. A Citizens' Band telecommunications system has been set up within the Central Emergency Relief Organisation. It consists of one base station, located in the Control Room at Police Headquarters and at present some portable (walkie-

talkie) sets intended to facilitate various types of field work. The sets may also be used in mobile units as magnetic antennae are available.

11.5. Channel 9 has been reserved for the purpose of emergency traffic and channel 10 for the Defence Force contacts with fishing boats.

11.6. The call codes to be used for transmission purposes are:-

"CERO Base" - Police Headquarters
 "CERO 1" "CERO 2"....."CERO 8" for the
 portable sets.

Maintenance

11.7. The Police Department will be responsible for the maintenance of C.E.R.O. telecommunications equipment and will make periodic tests to ensure its readiness for an emergency.

Allocation of C.B. sets

11.8. The Hospital Director, Queen Elizabeth Hospital will be issued with two sets - one to remain at the hospital and the other for field use of the emergency team. The other sets will be kept at Police Headquarters and will be assigned to the appropriate emergency workers by the Emergency Control Officer according to the nature of the emergency.

B.C.B.R.A.

11.9 Members of the Barbados C.B. Radio Association with the help of other volunteer C.B'ers will assist in field operations. It has been arranged therefore that, in consultation with CERO, C.B'ers will be assigned to the various hurricane shelters and first aid stations.

11.10. When it has been established that a hurricane is likely to have some effect on the Caribbean area, on the issuing of a 'Weather Advisory' by the Met. Officer, all

C.B'ers in Barbados involved in the hurricane emergency programme will be instructed to tune in their transceivers to channel nine (9). While on this channel all relevant information will be relayed from the various news media.

11.11. When a 'Hurricane Watch' or a 'Hurricane Warning' has been issued, C.B'ers will be requested to switch their transceivers to their pre-assigned area frequencies and await further instructions from their area controllers.

11.12. At a pre-arranged time, mobile units will be requested by their controllers to take up their positions at the various shelters assigned to them.

11.13. Messages will then be transmitted from the shelters using the 'ten code' where possible, to the area controllers on the assigned frequencies. These will then be relayed on channel twenty-three (23) to the Central Control Station, located at the Ministry of Communications and Works' monitoring station at Gun Hill in St. George, for transmission on channel nine (9) to the C.E.R.O. base at Central Police Station.

11.14. In some cases where the contents of messages may be required to be kept confidential, a special emergency 'ten code' drawn up by the B.C.B.R.A. Emergency Committee, and issued only to C.B'ers involved in the exercise, will be used.

11.15. All messages received from the various shelters will be logged by the area controllers before transmission to the Central Control Station where again there will be logged before being passed to the C.E.R.O. base.

11.16. It should be noted that in the event of a hurricane or other disaster affecting Barbados, all the odd number channels from one to twenty-three (1-23) will be used for the purpose of internal communications. These channels will be assigned to area controllers with the exception of twenty-three (23) which will be used for passing messages to the Central Control Station, nine (9) which will be used for transmission between the Central Control Station and the C.E.R.O. base and eleven (11) which will continue to be used for calling purposes only as is done at present.

PART 12

RESPONSIBILITIES OF THE DISTRICT
EMERGENCY ORGANISATIONS

12.1. If any programme of disaster preparedness is to be meaningful, then it must involve not only Civil Servants, but individuals within the wider community as well. Community involvement is absolutely vital to any action in time of disaster and it is important that this involvement should begin in the pre-emergency planning period. In this respect, the participation and assistance of Service Clubs such as the Lions, Jaycees, Kiwanis etc. is considered to be most vital.

12.2. With the assistance of the Electoral Department, a network of District Emergency Organisations has been established and will be maintained within the framework of CERO to cover the whole island as follows:-

<i>Area</i>	<i>Headquarters (E.O.C.)</i>
1. Constituencies of - City of Bridgetown St. Michael West	Queen's Park House
2. Constituencies of - St. Michael South Central St. Michael South	Bridge Police Station
3. Constituencies of - St. Michael East St. Michael South East	Ursuline Convent
4. Constituencies of - St. Michael Central St. Michael North East	District 'A' Police Station
5. Constituencies of - St. Michael North St. Michael North West (along with that part of Cave Hill which is in the Constituency of St. James South) St. Michael West Central	Black Rock Police Station

6.	Constituency of Christ Church West	Hastings Police Station
7.	Constituency of Christ Church West Central	St.Lawrence Police Station
8.	Constituencies of - Christ Church East Central Christ Church East (along with the districts of Charnocks and Spencers)	Oistins Police Station
9.	Parish of St.George (along with districts of Windsor and Hannays	District 'B' Police Station
10.	Parish of St. Philip	District 'C' Police Station
11.	Parish of St.John	Four Roads Fire Station
12.	Parish of St. James	Holetown Police Station
13.	Parish of St. Peter	District 'E' Police Station
14.	Parish of St. Lucy	Crab Hill Police Station
15.	Parish of St. Thomas	District 'D' Police Station
16.	Parish of St.Andrew	Belleplaine Police Station
17.	Parish of St. Joseph	District 'F' Police Station

Structure of the D.E.O's

12.3. The D.E.O's should have a small management committee of persons who are willing and able to accept responsibility. Each committee should include a Group Leader and a Deputy Group Leader. It will also be necessary to have supporting key personnel responsible for supervision of:

- shelters
- feeding
- clothing

12.4.

- first aid
- collection of damage statistics
- communications (radio and messengerial)

12.4. Although group members are assigned specific roles, they should make themselves familiar with all areas of the group's activities in the operational plan.

12.5. For further information on structure and functions of the District Emergency Organisations reference should be made to the District Booklet.

Selection of Personnel

Shelter Wardens

12.6. Senior Wardens and Emergency Senior Wardens will be chosen by the Chief Education Officer. D.E. O's will be responsible for providing Assistant Wardens in consultation where necessary with the Chief Education Officer. Reference is invited to the Shelter Wardens booklet.

12.7. These Wardens should be drawn from the area and could comprise -

- (a) teachers - names, addresses etc. obtainable from the Chief Education Officer;
- (b) members of service clubs; e.g. Boy Scouts, Jaycees, Lions, Anglican Young People's Association etc. who are able and willing.
- (c) other community organisations.

12.8. It is to be noted that the list of emergency shelters will be published in the local newspapers from time to time just before and during the season.

PART 13

DRAWING UP OF A DISASTER PLAN

13.1. The preceding parts outline some of the main responsibilities of various agencies, and these must be provided for in individual plans. Bear in mind that the aims of any disaster plan must be to ensure the following:-

- (a) that all personnel are ready to make the earliest possible response to an emergency;
- (b) that some system for crowd control must be established as early as possible, so as to avoid unnecessary casualties;
- (c) the quick and efficient evacuation of any building or area considered to be in a dangerous situation;
- (d) the provision of first aid with a minimum of delay;
- (e) that factual information is relayed as early as possible to the Emergency Operations Team.

13.2. The following points should also be taken into account:-

Leadership

- Although there will be a main coordinating body - the Emergency Operations Centre - it will be necessary to form your own central point of communication to assist your staff in receiving information, making decisions etc.

Public Information

- Public information is of major importance in disaster planning. Make sure that members of the public are versed in preparations for coping with disasters before a disaster strikes.

Action Checklists

- Provide a list of actions to be taken by individual members of your staff (or individual groups) in a disaster. This list should be clear and concise so that there is no doubt as to what has to be done, and when.

Maps

- Preparation of maps before hand is essential. These maps should show key areas, reporting points, etc. Coloured pins are helpful in showing locations of shelters, centres communications points etc.

Organisational Charts

- Simple organisational charts are useful before and during emergency operations. Do not clutter your charts with copious details. The chart should indicate which members of your staff are responsible for certain actions. Include brief instructions on how to acquire emergency supplies, and emergency purchasing and requisitioning procedures. You should also include names, titles, addresses and telephone numbers of key emergency personnel.

Identification Cards

- Identification cards and/or permits should be issued to key personnel to allow them passage through police lines.

Resources Data

- Every major source of local manpower, equipment and supplies should be considered in preparing what could be called a "Resources Data Book". This information will have to be up-dated frequently.

PART 14

HURRICANE ADVISORIES AND WARNINGS

14.1. Statements issued by the Government Meteorological Office at Grantley Adams International Airport concerning the approach of hurricanes and storms may be classified as follows:

- i) Bulletin - issued when a significant weather system is detected in the area;
- ii) Advisory - issued at regular intervals when a tropical storm or hurricane is first detected in the area;
- iii) Watch - issued when the hurricane continues its advance and hurricane conditions are a real possibility; it does not mean that they are imminent;
- iv) Warning - issued when once it is established that hurricane conditions are expected within 24 hours.

N.B. The area used is that part of the Atlantic Ocean which is bounded by latitudes 9° north and 17° north and longitudes 40° west and 60° west.

Radio Announcements

14.2. Announcements will be made over C.B.C. Radio Barbados and Barbados Rediffusion at frequent intervals.

OTHER SIGNALS

14.3. Other signals are of two types:-

i) Visual Warning Stations

By day - two flags showing a black square on a red ground, flown one above the other at mast heads;

By night - two red lights, one above the other, hoisted at mast heads.

14.4. The Commissioner of Police is responsible for the following visual warning stations:

Dist. 'B' Police Station	Dist. 'E' Police Station
Dist. 'C' Police Station	Dist. 'F' Police Station
Dist 'D' Police Station	Belleplaine Police Station
Hackleton's Cliff, St.John	Highgate Signal Station
Mount Standfast, St. James	

14.5. Other visual warning stations are as follows:

<u>Station</u>	<u>Officer/Person responsible</u>
Shipping Office Careenage House	Port Manager
Public Buildings	Ch. Technical Officer, MCW
Crane Hotel, St. Philip	Ch. Technical Officer, MCW
St. John's Church	The Rector
Golden Ridge, St. George	Ch. Engineer, W.W.D.

ii) Audible Warnings

a) Bells

Church Bells will be rung rapidly at intervals for a period of fifteen minutes;

b) Sirens

Sirens controlled by the Commissioner of Police will be sounded every quarter hour for an hour in blasts of one minute, three times with an interval of half a minute between blasts at the following Police Stations:-

Central	District 'B'
Worthing	District 'E'

All Clear Signals

14.6. When it is certain that the island is out of danger from the hurricane 'All-Clear' signals will be given. These signals will be given as follows:-

- a) Visual - By day: A green flag with a white diagonal stripe flown at mast heads;

By night: A green light at mast heads;

- b) Audible - Sirens will be sounded continuously for three minutes;

two rockets or maroons will be fired from the Harbour Police Station and where possible from District Police Stations;

- Police will advise District Emergency Organisations, Rectors and Vicars, and will notify residents of isolated districts;
- Reports will be made over C.B.C. Radio Barbados and Barbados Rediffusion Service Ltd.

PART 15

THE GOVERNOR-GENERAL AND CABINET

15.1. If damage and circumstances warrant such action, the Governor-General will, on the advice of Cabinet, issue a proclamation declaring a State of Emergency under the Emergency Powers Act (Cap. 161) and such Orders as may be necessary from time to time will be made under Section 3 of the Act. A copy of this Act is given as Appendix 'A'. The Governor-General may also by proclamation under Section 19(1) of the Volunteers Act 1909, call out the Barbados Regiment for military service and such other duties as may be required.

15.2. The Cabinet will meet at such place as the Prime Minister through the Secretary to the Cabinet will direct. The Solicitor General and the Chief Parliamentary Counsel will also be in attendance at the meeting place of the Cabinet.

APPENDIX 'A'

EMERGENCY POWERS ACT CAP. 161

*An Act to make exceptional provision for the protection
of the community in cases of emergency.*

1. This Act may be cited as the Emergency Powers Act.
2. (1) Where the Governor-General is satisfied -
 - (a) that a public emergency has arisen as a result of the imminence of a state of war between Barbados and another state or as a result of the occurrence of any earthquake, hurricane, flood, fire, outbreak of pestilence, outbreak of infectious disease or other calamity, whether similar to the foregoing or not; or
 - (b) that action has been taken or is immediately threatened by any persons of such a nature and on so extensive a scale as to be likely to endanger the public safety or to deprive the community, or any substantial portion of the community, of supplies or services essential to life,

the Governor-General may, by proclamation (hereinafter referred to as a proclamation of emergency) declare that a state of public emergency exists.

(2) A proclamation of emergency shall, unless previously revoked, remain in force for one month or for such longer period, not exceeding six months, as the House of Assembly may determine by a resolution supported by the votes of a majority of all the members of that House:

Provided that any such proclamation may be extended from time to time for a further period not exceeding six months by resolution passed in like manner and

may be revoked at any time by resolution supported by the votes of a majority of all members of the House of Assembly.

(3) The Governor-General shall, immediately after making a proclamation of emergency, communicate the fact to both Houses and if Parliament is prorogued or either House is adjourned to a day more than five days thereafter, the Governor-General shall summon both Houses or the House so adjourned, as the case may be, within five days and the Houses so summoned shall accordingly meet and sit upon the day appointed by the Governor-General acting in accordance with the advice of the Prime Minister and shall continue to sit and act in like manner as if they had stood prorogued or adjourned to that day.

3. (1) Notwithstanding any other provisions of law, when a proclamation of emergency has been made and so long as the proclamation is in force, it shall be lawful for the Cabinet to make any orders whatsoever which it considers desirable in the public interest.

(2) Orders made under this section may provide for:

- (a) the supply and distribution of food, water, fuel, light and other necessities;
- (b) maintaining the means of transportation by land, air or water and the control of the transport of persons and things;
- (c) (i) the taking of possession or control of any property or undertaking;
(ii) the acquisition of any property other than lands;
- (d) the entering and search of any premises;
- (e) charging, in respect of the grant or issue of any licence, permit, certificate or other documents for the purposes of any Order such fee as may be prescribed by or under such order;

(f) the payment of compensation and remuneration to persons affected by an order.

(3) An order may provide for empowering such authority or person as may be specified therein to make rules for any of the purposes for which such order is authorised by this Act to be made and may contain such incidental and supplementary provisions as appear to the Cabinet to be necessary or expedient for the purposes of the order.

(4) Any orders so made shall be laid before Parliament as soon as may be after they are made, and shall not continue in force after the expiration of seven days from the time when they are so laid unless a resolution is passed by both Houses providing for the continuance thereof.

(5) The orders so made shall have effect as if enacted in this Act.

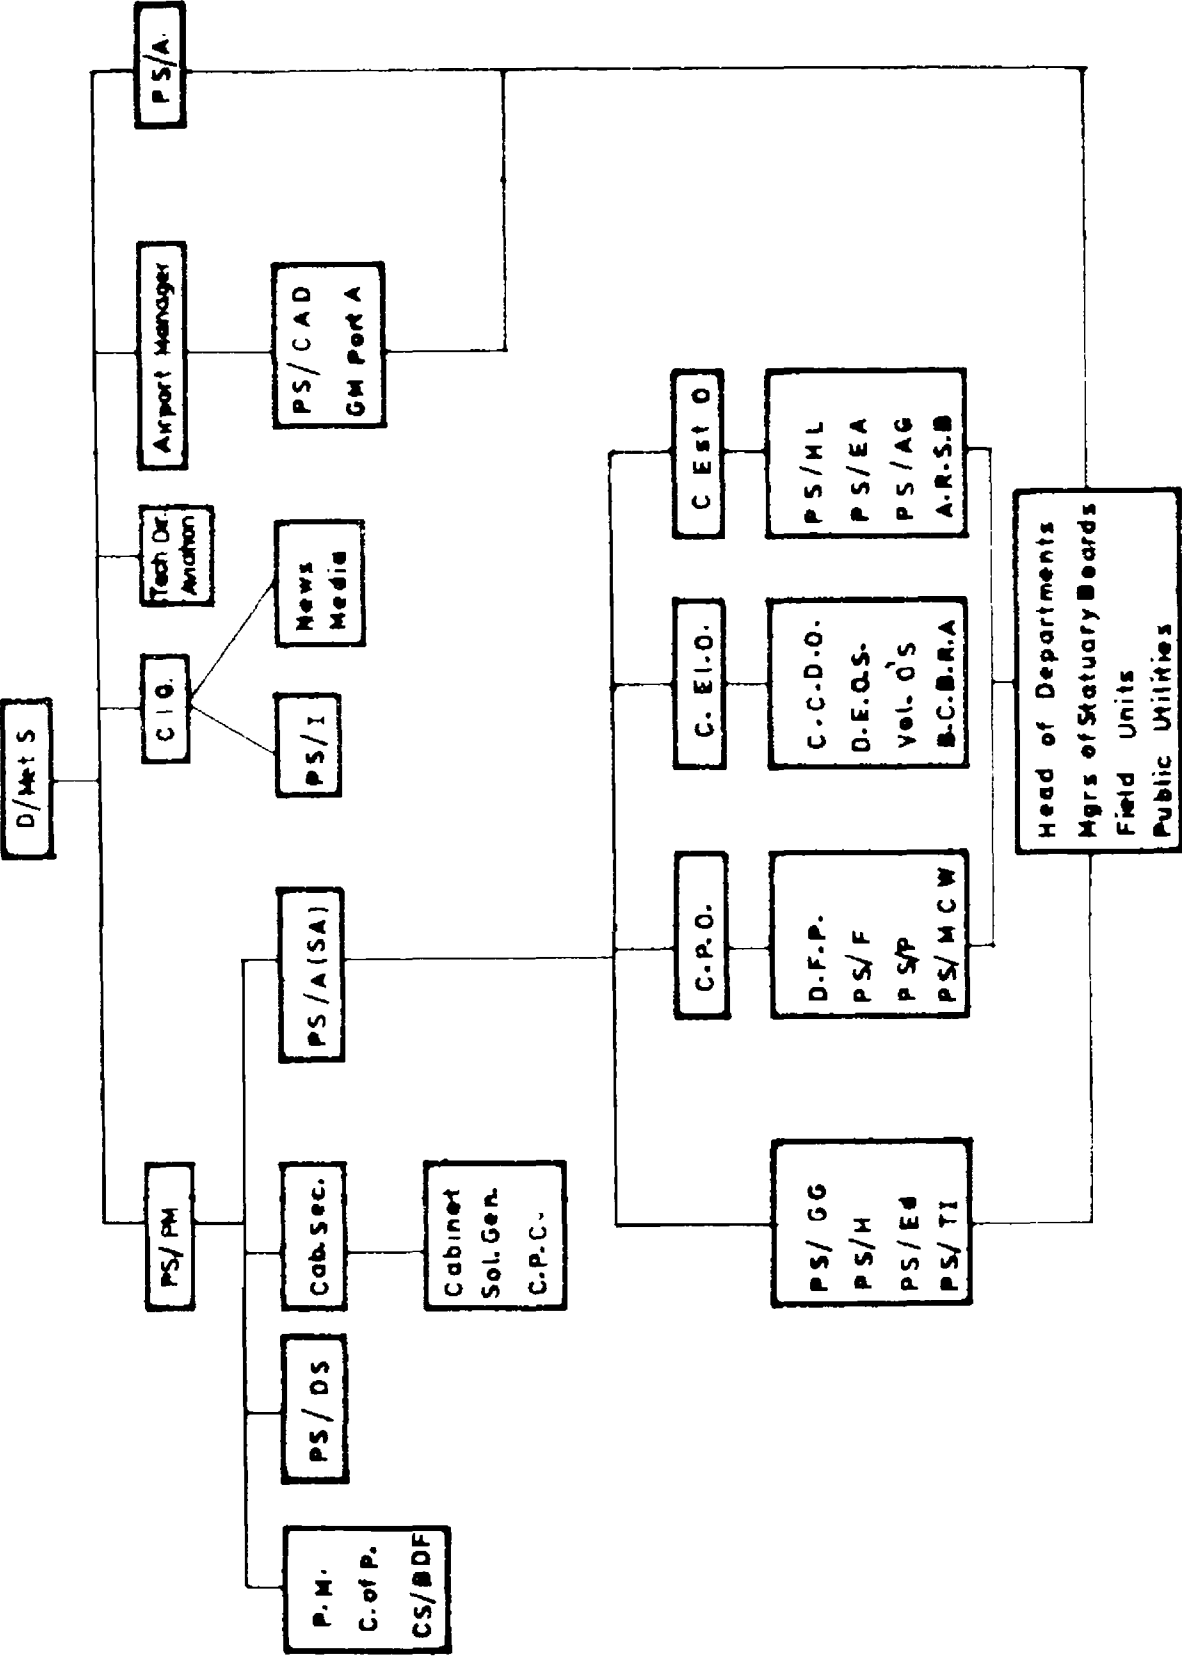

(6) The expiry or revocation of any orders so made shall not be deemed to have affected the previous operation thereof or the validity of any action taken thereunder or any penalty or punishment incurred in respect of any contravention or failure to comply therewith or any proceeding or remedy in respect of any such punishment or penalty.

4. (1) Nothing in this Act shall be construed to authorise the making of any orders imposing any form of compulsory military service.

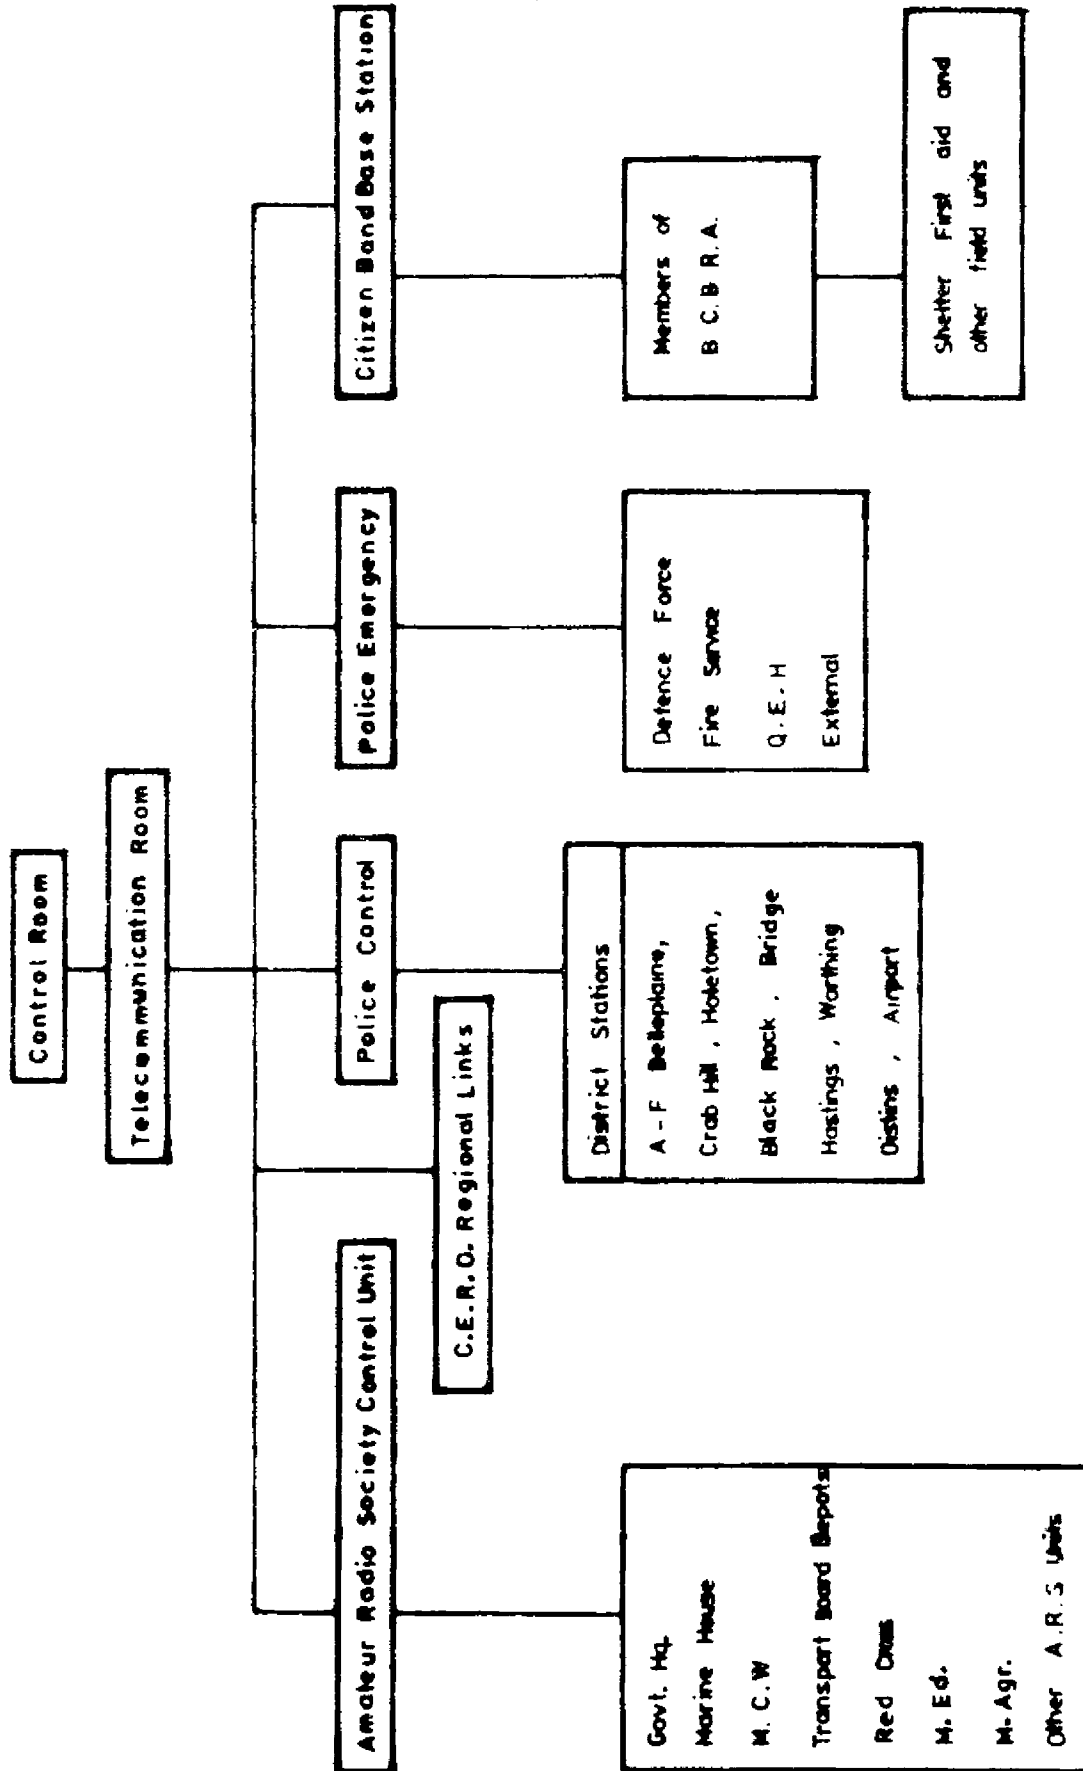

(2) Nothing in this Act or any order made shall make it an offence for any person or persons to take part in any strike or peacefully to persuade any other person or persons to take part in a strike.

5. No action shall be brought against any person for anything done in good faith in the exercise of any powers conferred by any order or rule made in pursuance of the powers conferred by this Act.

Appendix B

Appendix C

Communications Network at Police Headquarters

APPENDIX 'D'

HURRICANE SUPPLIES

WATER: An adult will need a minimum of 1 litre (35 oz.) of clean drinking water per day. One gallon (128 oz.) per adult is a better quantity per adult per day - when he is active in tropical sun. Man will die in 3 days without water, but will survive about 10 days without food. Keep water in a sealed clean plastic container (such as the containers used to package vinegar and cooking oil, or the 25 lb. plastic salt meat pails). If you have to use water from land - boil for at least 10 minutes before drinking.

FOOD: Stock items that do not require cooking, and provide food supplies for your family for at least 10 days. In case of a hurricane, public feeding with hot meals is unlikely until day 5 - except for injured, infants and young children.

1. Corned Beef
2. Sardines
3. Luncheon Meat
4. Peanut butter
5. Jam/Jelly/Honey
6. Biscuits
7. Salt - body needs daily salt to avoid cramp
8. Fruit Juice
9. Raisins/Currants/Dates - dried
10. Rolled Oats
11. Chocolate Bars/Barley Sugar
12. Condensed Milk
13. Sugar
14. Toilet Paper

FIRST AID KIT

Band-aids
Bandages
Scissors/tweezers/needles/safety-pins
Alcohol
Cotton-wool/lint
Aspirin or other analgesic
White Petroleum Jelly/Antiseptic Ointment
First Aid Book

TOOLS

1. Waterproof flashlight - spare batteries/bulbs
2. Hurricane Lantern - Kerosene oil spare
3. Other safe lighting (NOT candles)
4. Matches - waterproof container/plastic bag
5. Hammer - professional with claw
6. Wood saw - 3 ft. cutting edge
7. Nails - 2 lb. 2", 2 lb. 4", 2lb. galvanise drive-nails
8. Waterproof Plastic - 12' x 12'
9. Cutlass/axe
10. Rope - nylon - about 50' x 1"
11. Pen-knife (heavy duty)

MISCELLANEOUS

Transistor Radio - spare batteries
Note Book - pencils/pens
Map of Barbados - Topographical
Stove - oil, Gas - Camp type
Metal cup/plate/spoon/cooking pot
