

*Representative Scenes at
Local Coordination Meetings*

This report documents the findings of the study team and is organized by general category of hurricane evacuation study product. Those general categories that are addressed include:

- Hazards/Vulnerability Data
- Behavioral Characteristics of Evacuees
- Shelter Issues
- Transportation/Clearance Time Data
- Evacuation Decision-Making
- Public Information

Each chapter describes typical study components and products produced in a comprehensive hurricane evacuation study. The chapter then summarizes actual data related to Hugo and compares it with study produced data for a relevant storm scenario. Recommendations are then given for future study efforts relative to that study topic.
