

COMO MEJORAR UNA
VIVIENDA DE MADERA

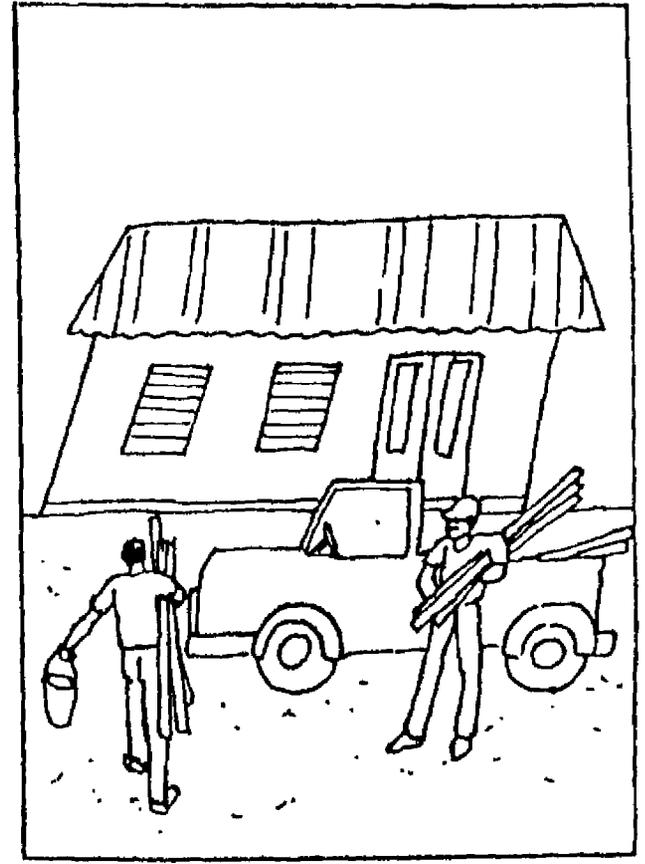

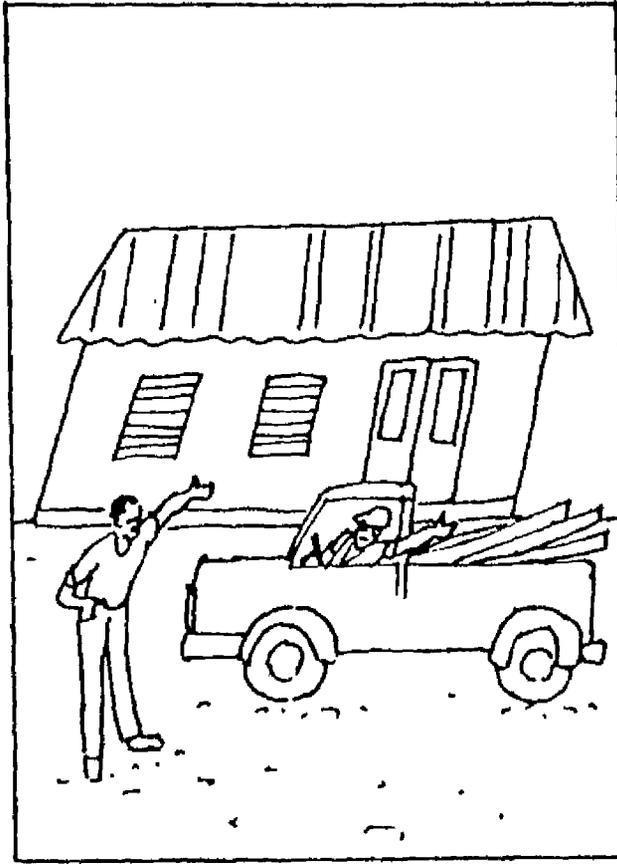

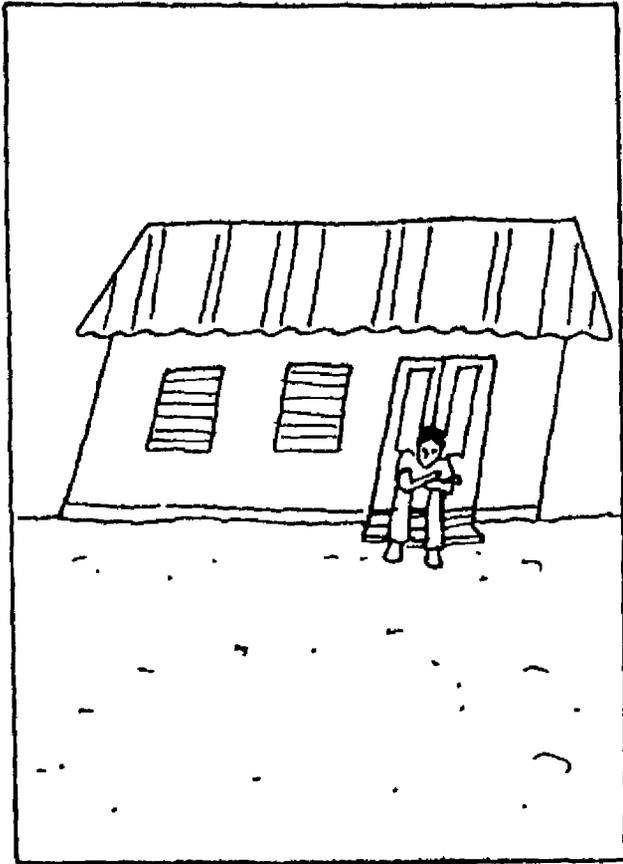

CON JUAN MARTILLO
Y PEPITO CORAZA

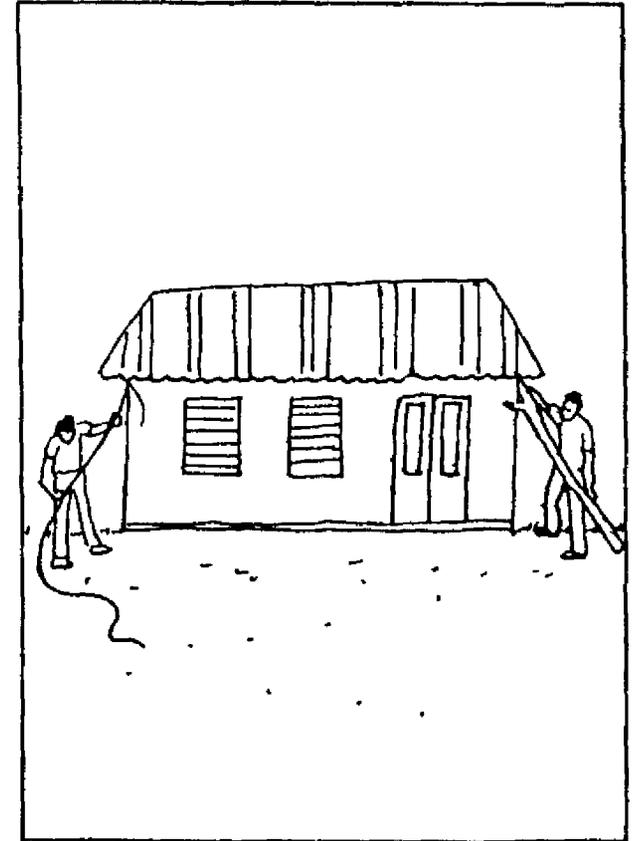

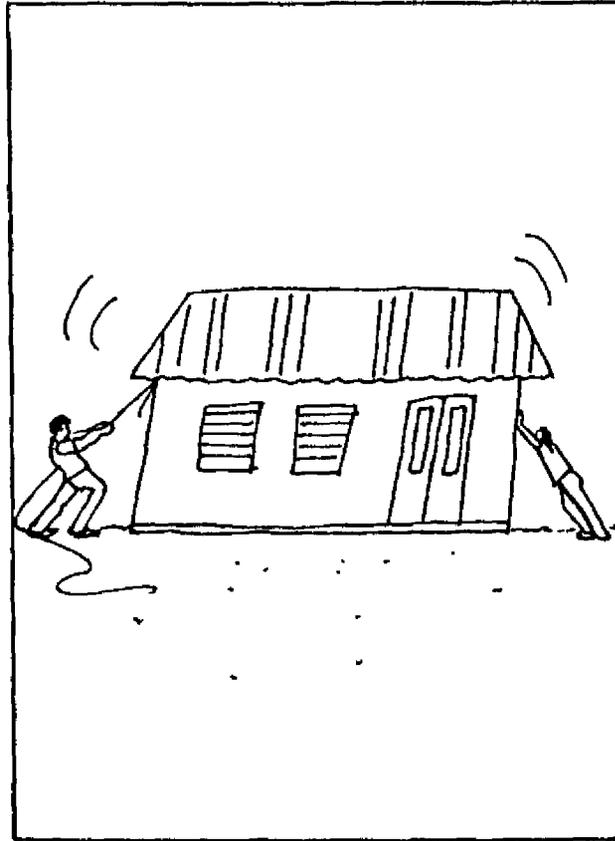

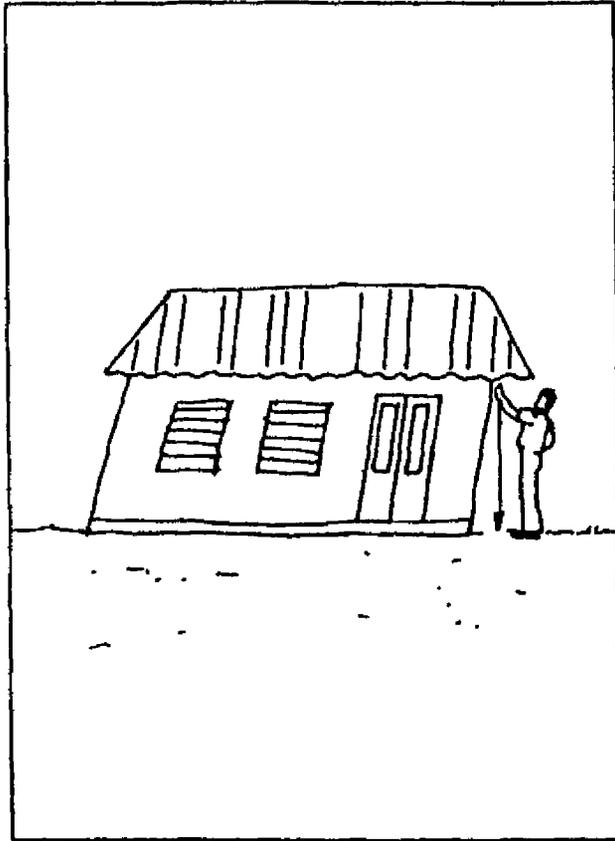

Manual prepared by Juliana Marek
INTERTECT, Dallas, Texas

This manual was prepared under
contract number 517-0164
of the U.S. Agency for International Development

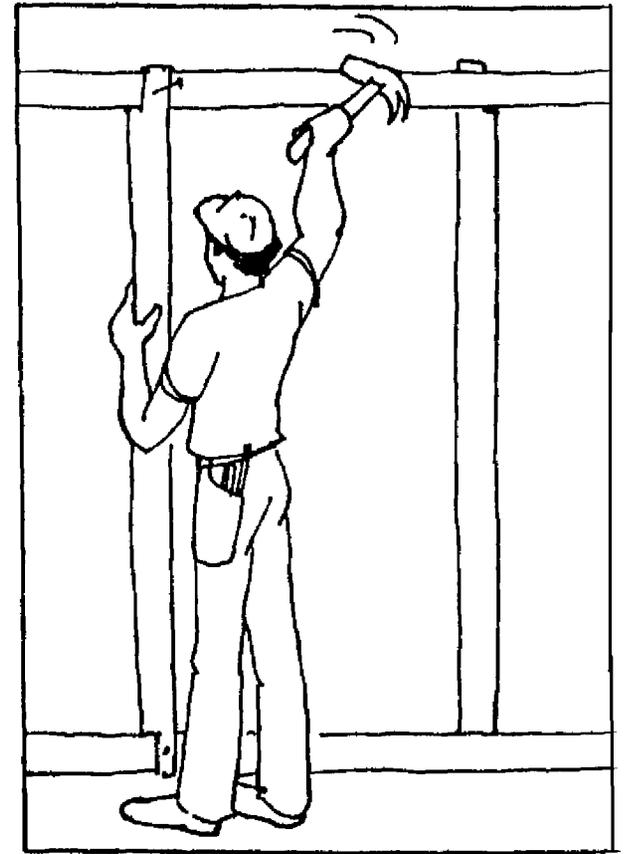

LA CASA DE PEPITO CORAZA SE ESTA CAYENDO.
JUAN MARTILLO PROPONE A PEPITO PARA MEJORAR
SU CASA PARA QUE RESISTA HURACANES.

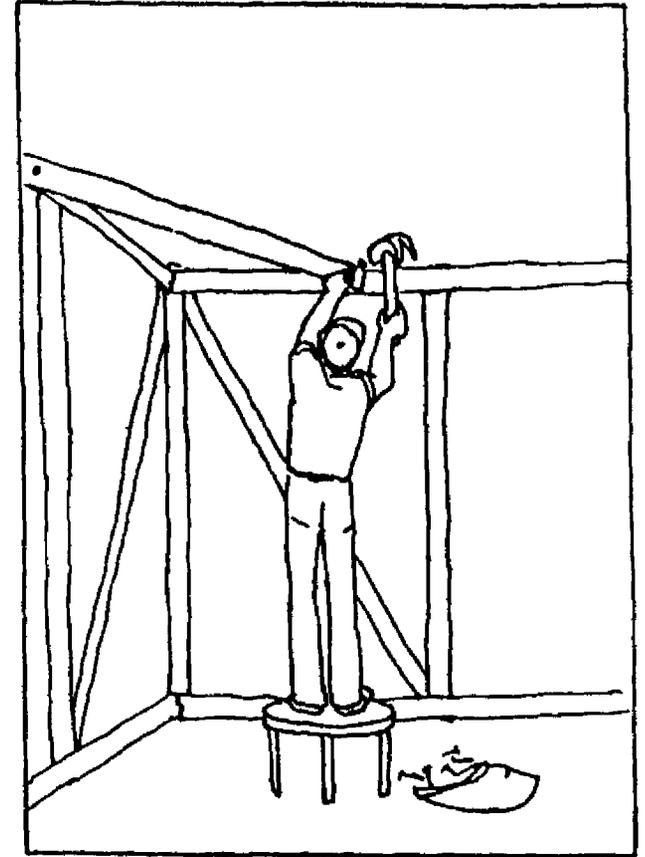

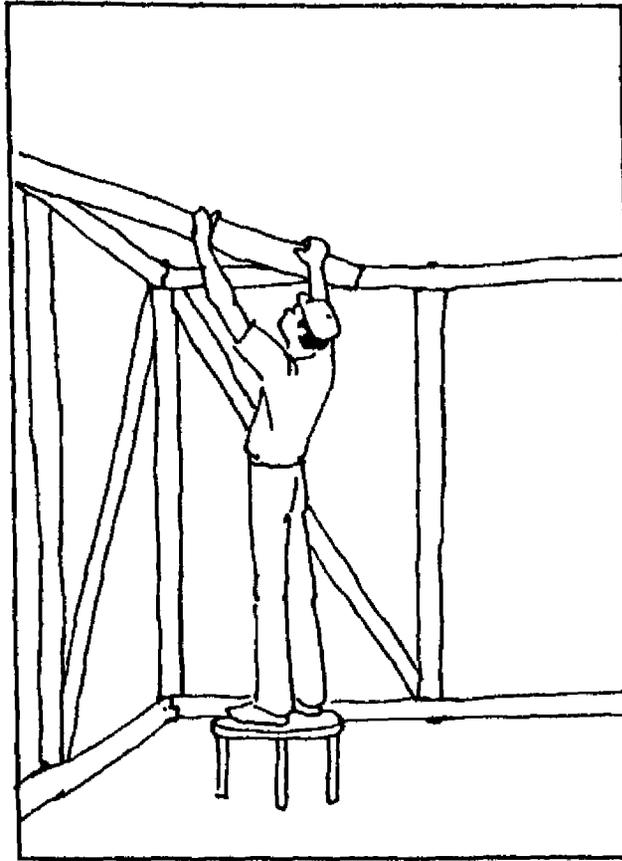

LA CASA DE PEPITO CORAZA SE ESTA CAYENDO. NO ESTA A PLOMO.

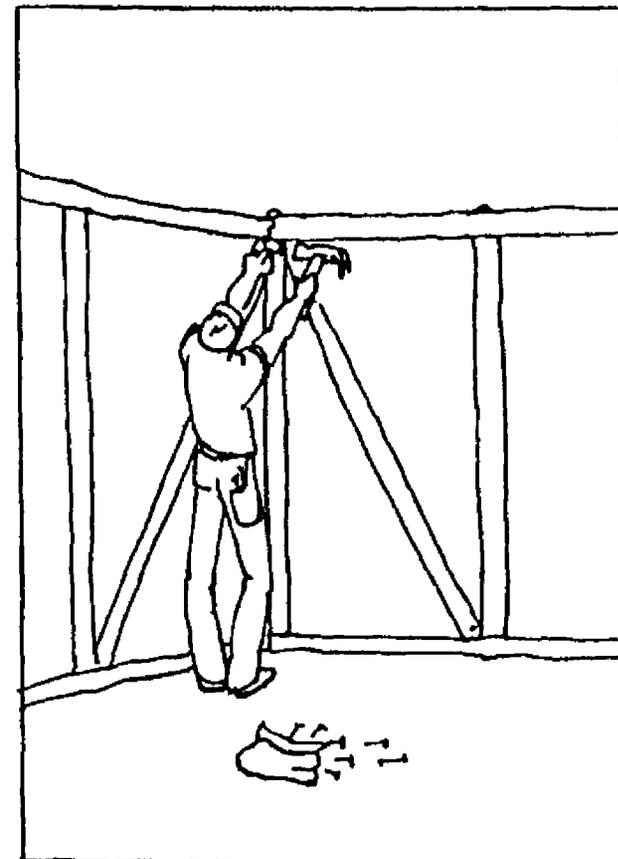

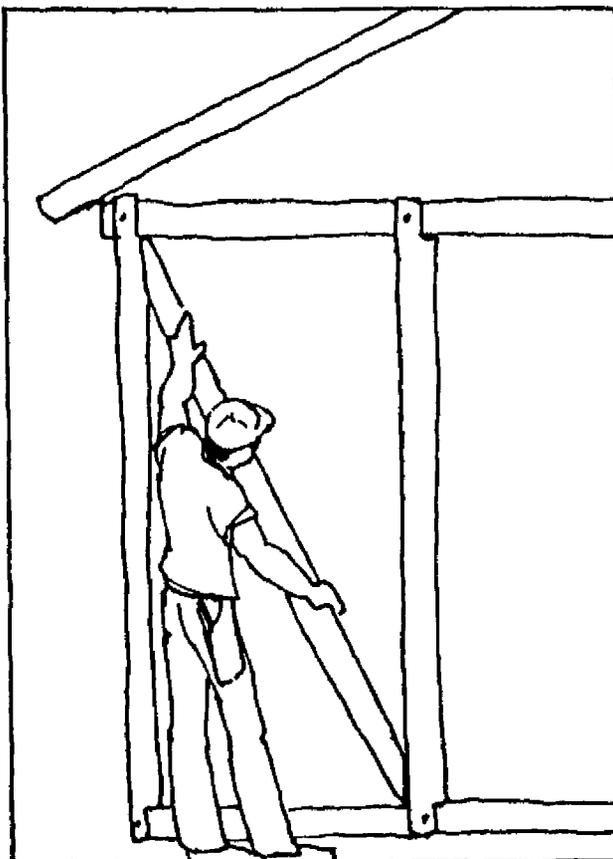

JUAN MARTILLO Y PEPITO TRABAJAN PARA PONERLA DERECHA. COLOCANDO EN LAS ESQUINAS PIE DE AMIGO.

JUAN MARTILLO DICE QUE ES NECESARIO QUITAR LOS HORCONES
PODRIDOS Y CAMBIARLOS POR HORCONES DE BUENA MADERA.

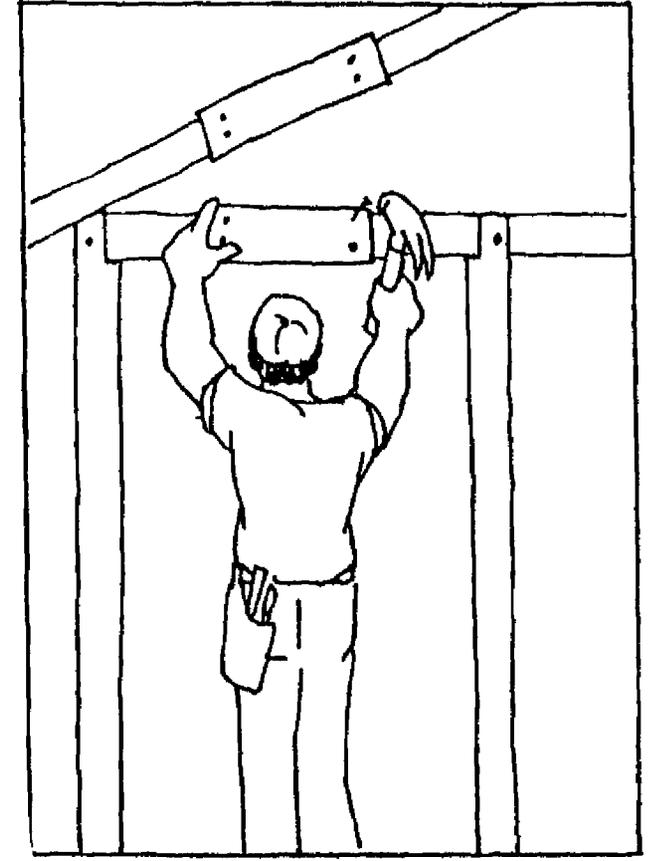

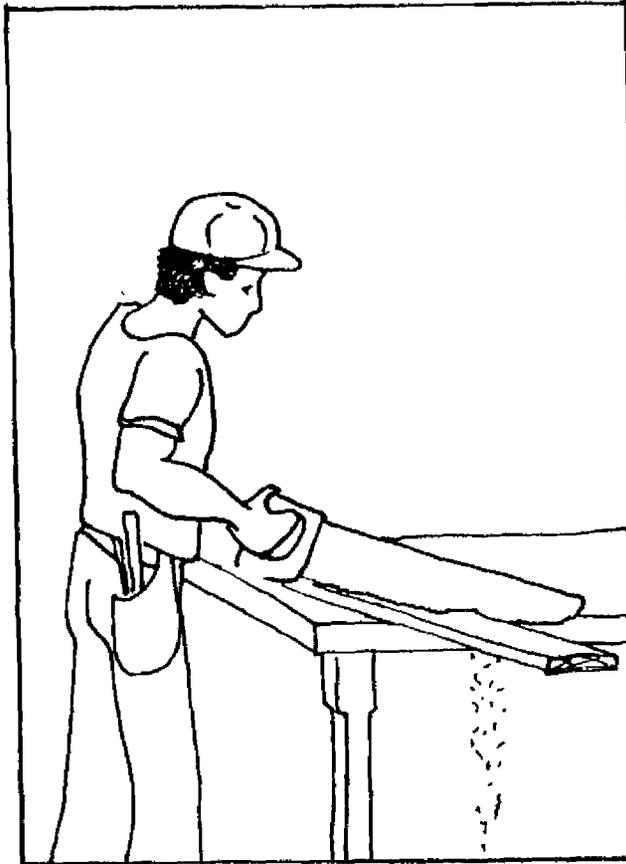

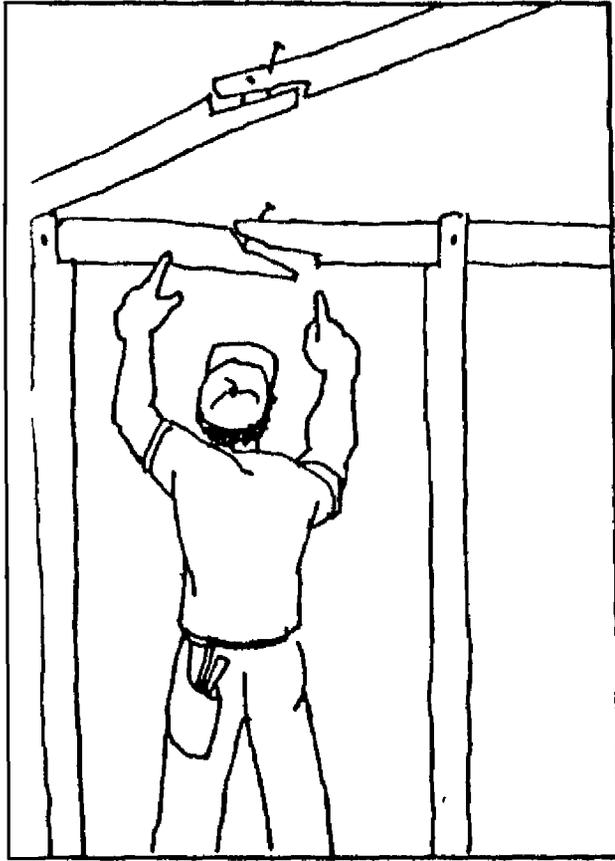

JUAN MARTILLO REFUERZA TODAS LAS ESQUINAS CON "CONTRA VIENTOS" DE MADERA CLAVADA.

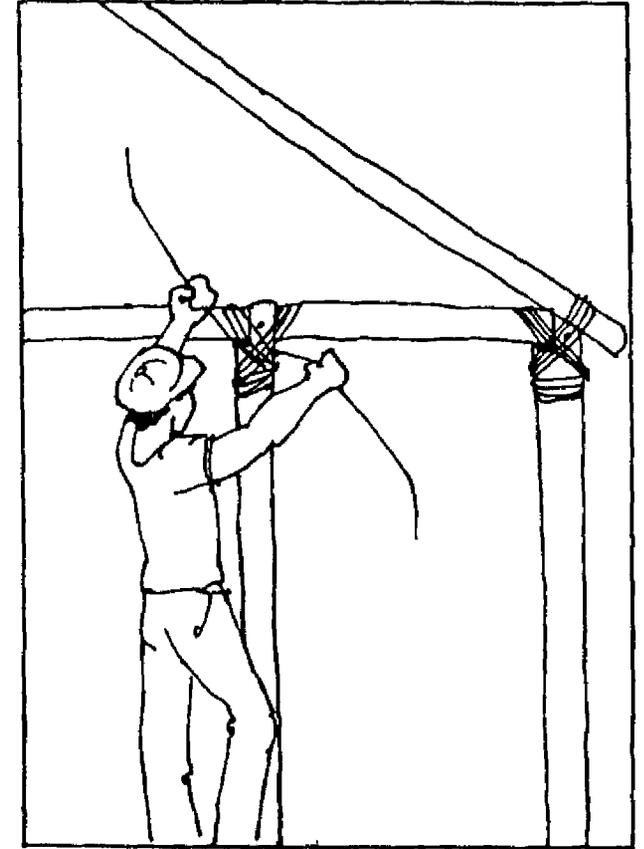

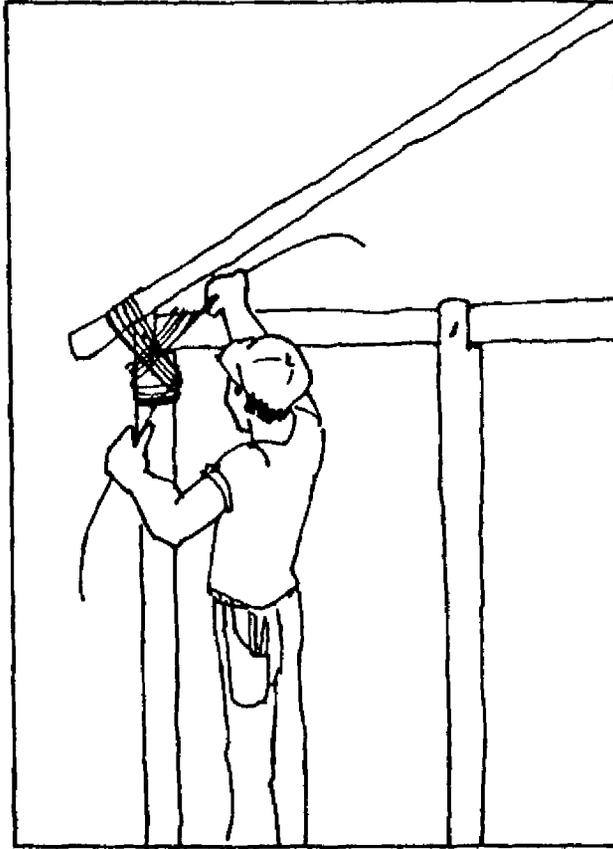

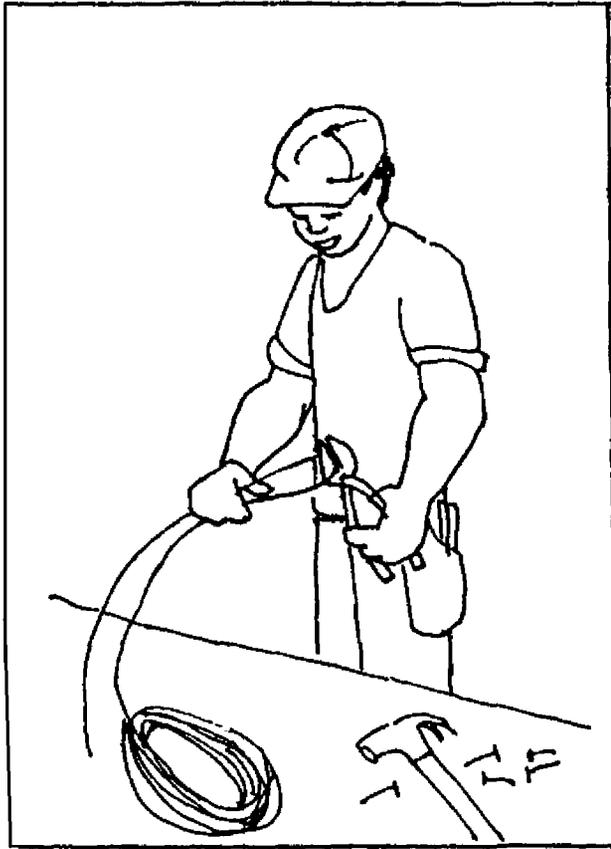

JUAN MARTILLO CORTA PEDAZOS DE MADERA.

ESOS REFUERZOS SON CLAVADOS EN CADA ESQUINA DE LA CASA.

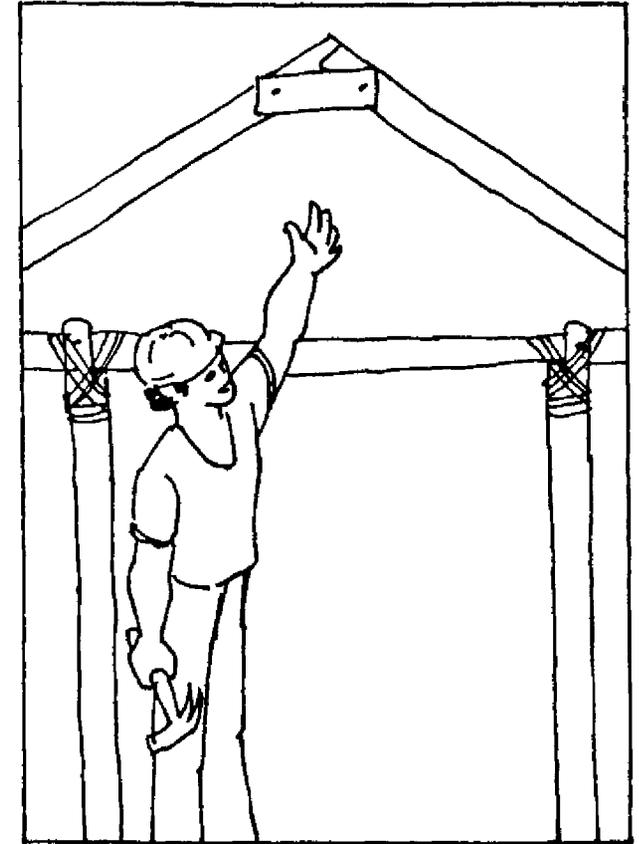

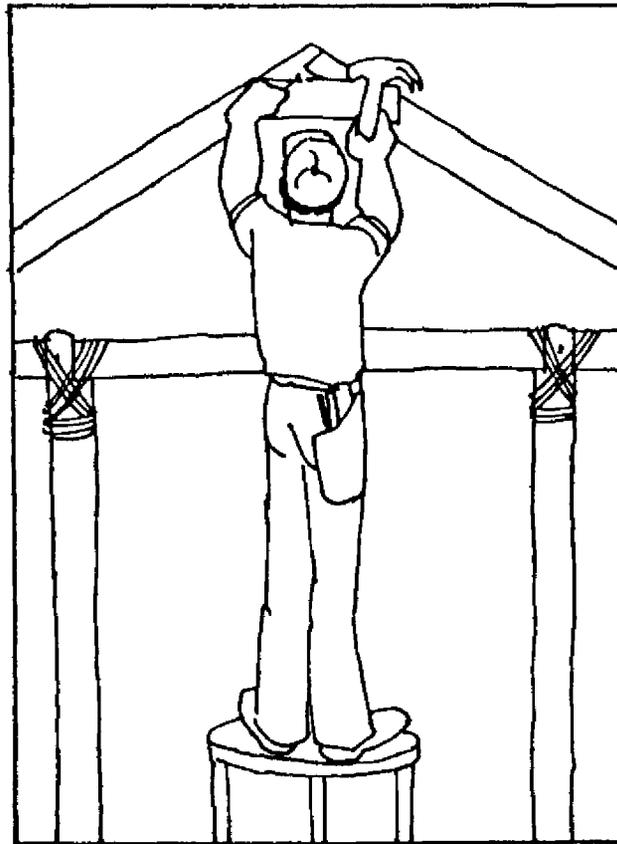

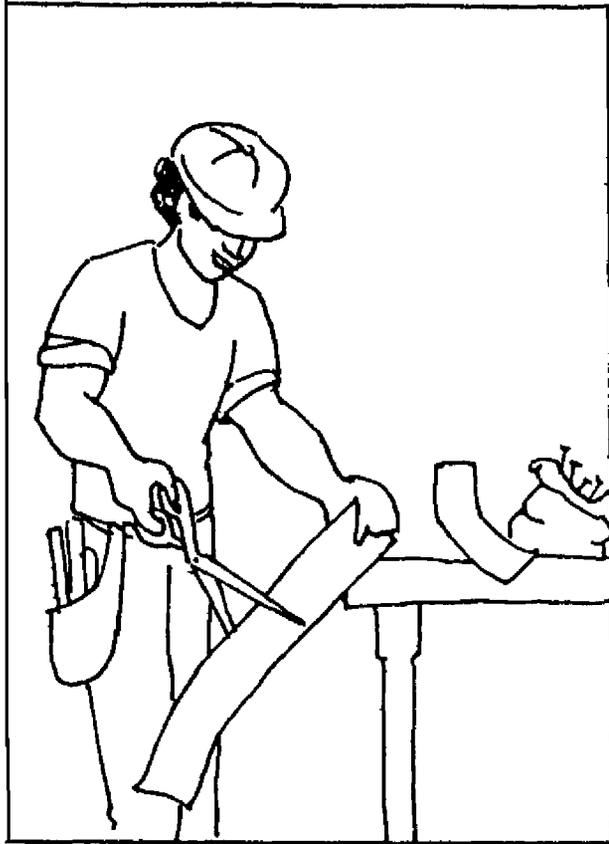

LOS EMPALMES MALOS NO RESISTEN UN HURACÁN.

JUAN MARTILLO LOS ARREGLA, CLAVANDO UNA TAPA DE MADERA SOBRE LAS UNIONES.

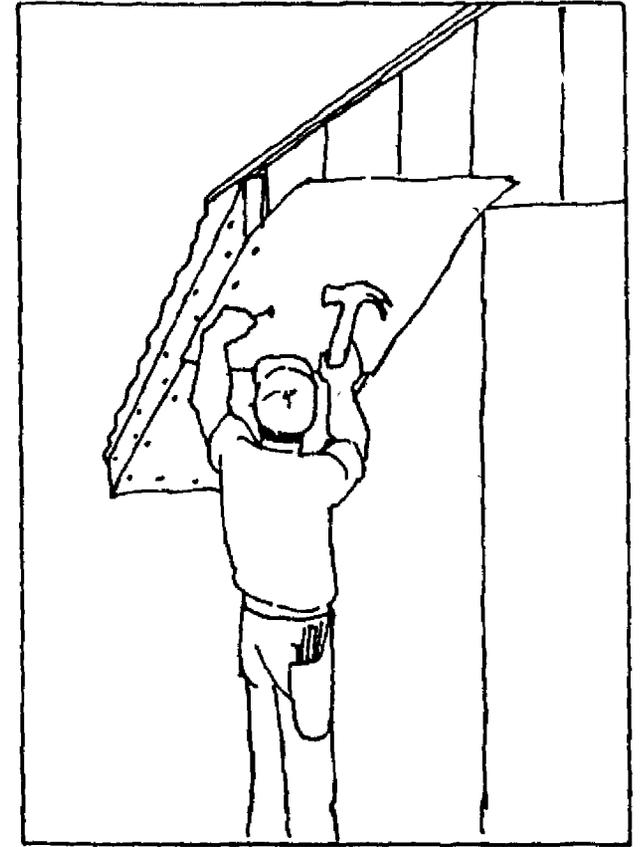

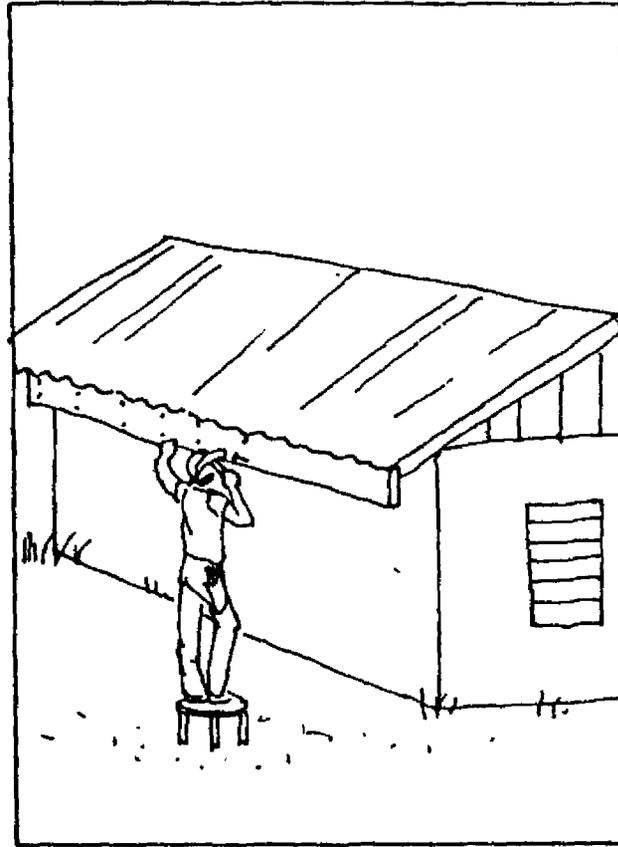

JUAN MARTILLO CORTA PEDAZOS DE ALAMBRE.

CON EL ALAMBRE SE AMARRAN TODAS LAS UNIONES DE LA CASA.

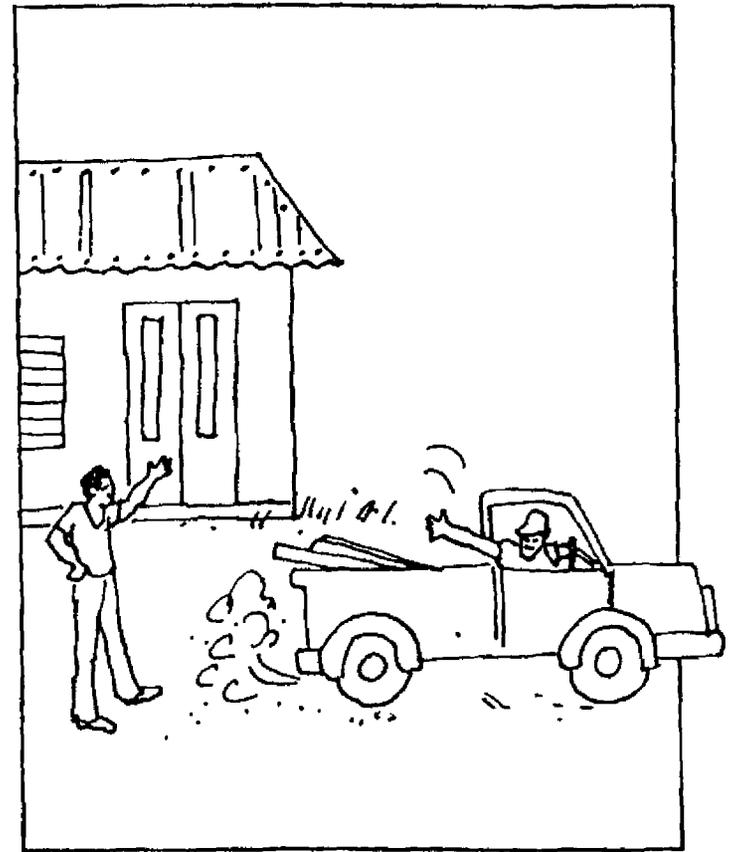

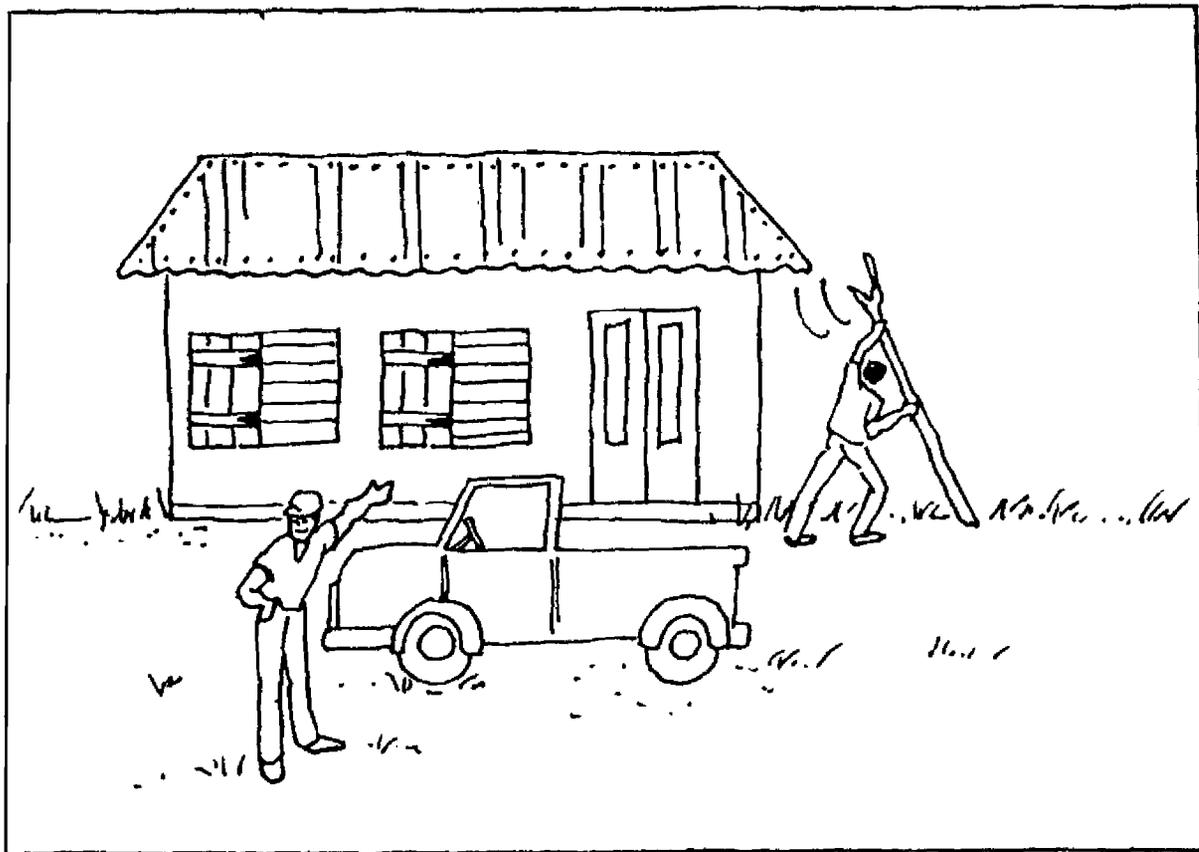

JUAN MARTILLO CORTA PEDAZOS DE ZINC.

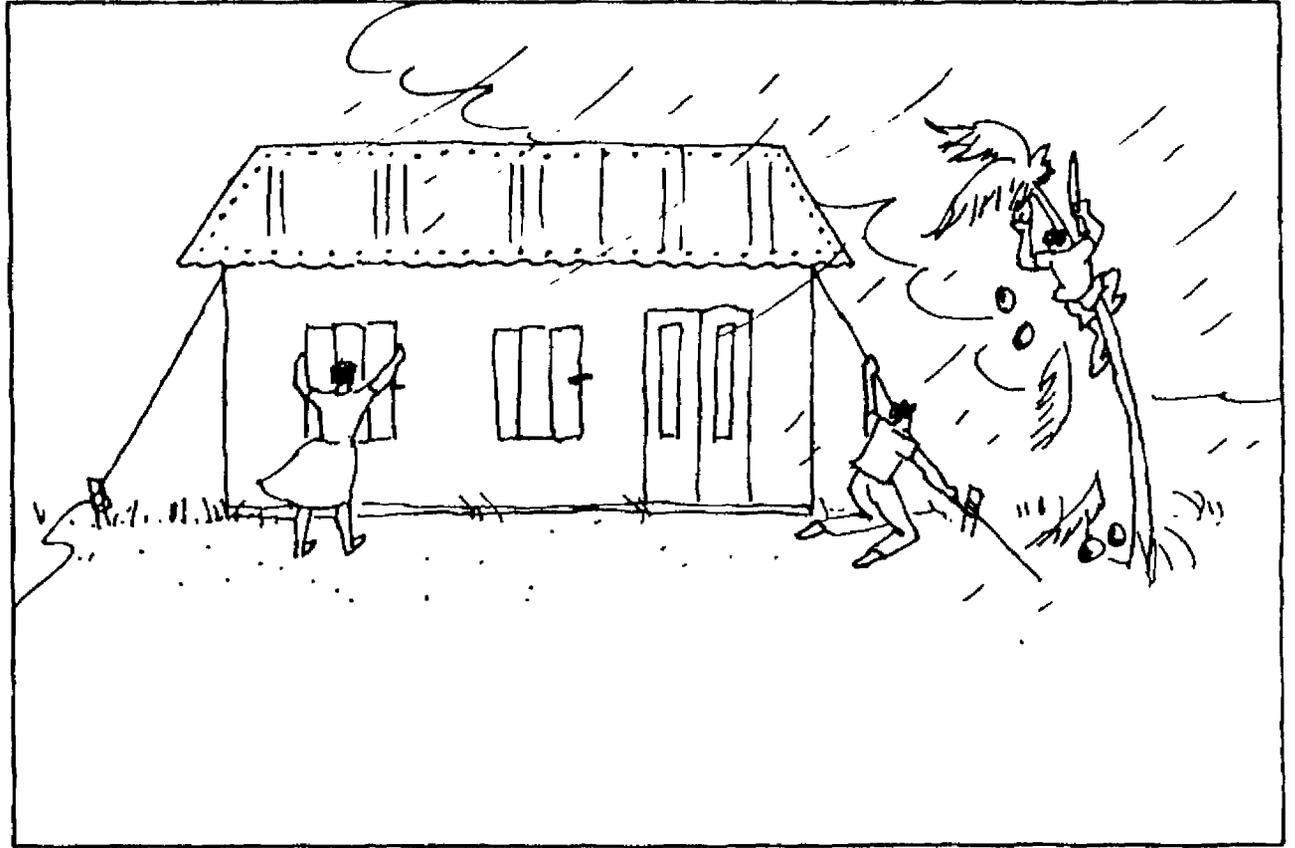

CON SÓLO DOS CLAVOS JUAN MARTILLO LOS COLOCA
EN LA TIJERILLAS.

JUAN MATILLO CORTA EL ZINC PARA CERRAR LOS ALEROS.
ES NECESARIO QUE EL VIENTO NO LEVANTE LAS PLANCHAS
DEL TECHO.

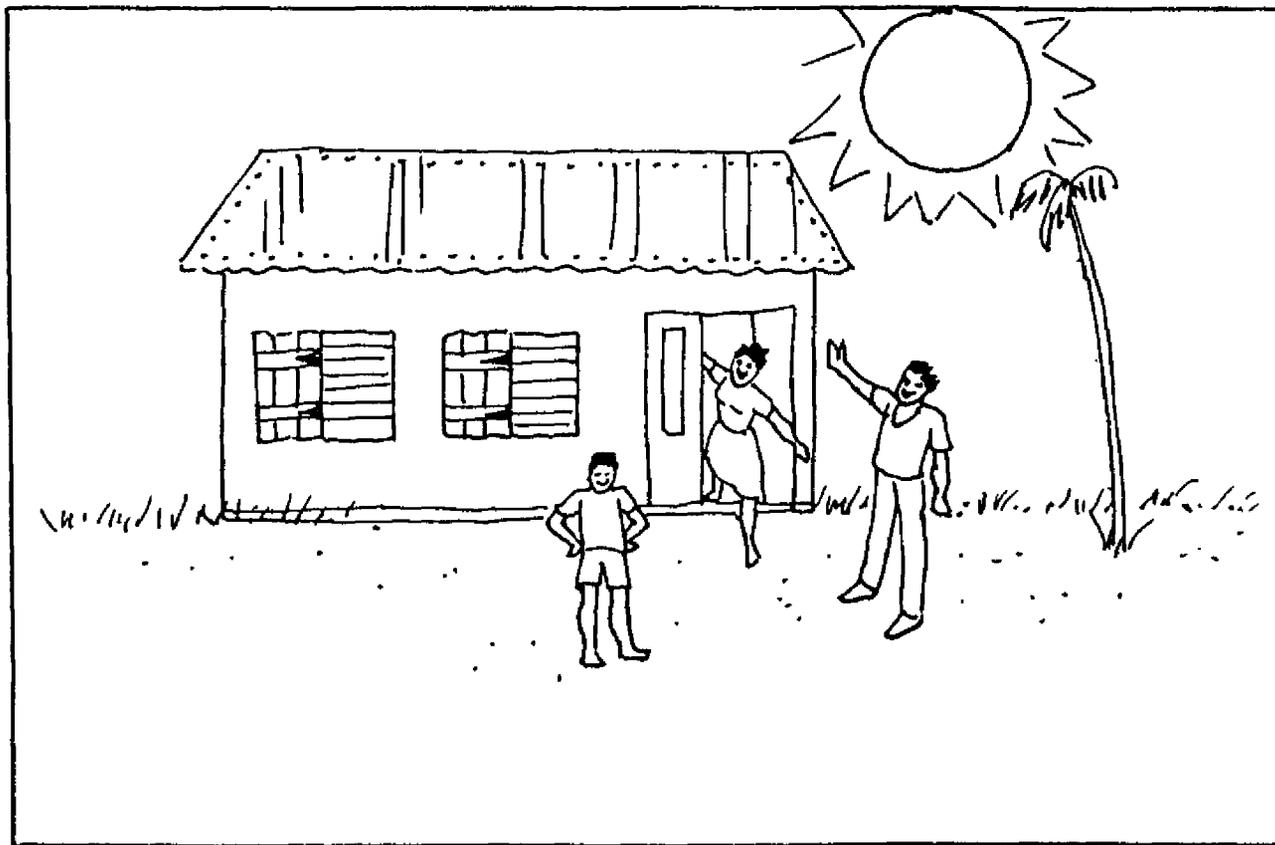

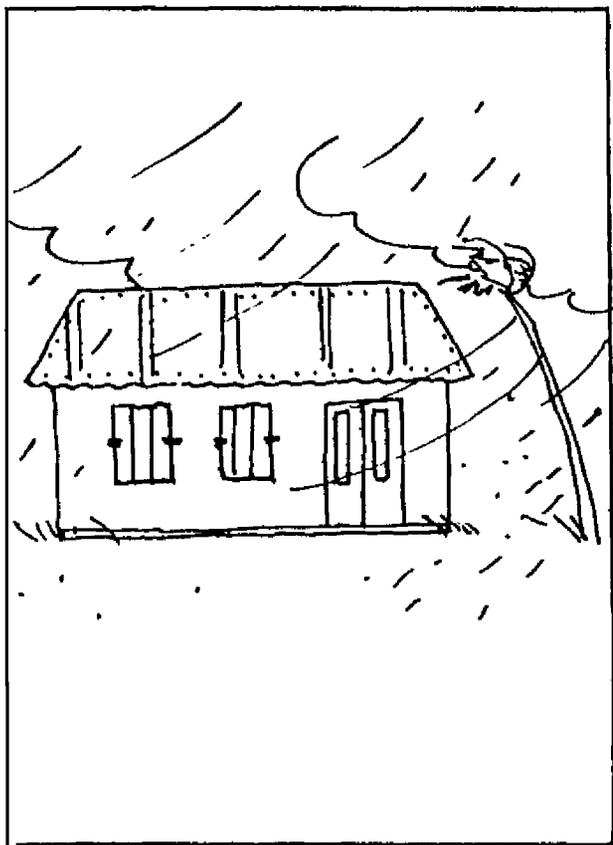

JUAN MARTILLO QUITA LOS PIES DE AMIGO.
GRACIAS A JUAN MARTILLO, PEPITO CORAZA TIENE UNA
CASA QUE RESISTE HURACANES.

LA FAMILIA DE PEPITO CORAZA DEBERA PROTEGER SU CASA DURANTE LOS HURACANES:

CERRAR LAS VENTANAS
CORTAR LAS RAMAS DE ARBOLES CERCANOS
AMARRAR LA CASA AL SUELO EN CADA ESQUINA

HURACAN!
LA CASA MEJORADA DE PEPITO CORAZA RESISTIO EL HURACAN

GRACIAS JUAN MARTILLO!
