

Short courses

2004

ITC offers a number of tailor-made courses of varying duration, which are conducted in the Netherlands, in the recipient's country or region, or online (i.e. distance education). In addition, ITC organises several refresher courses each year for its alumni in different parts of the world. An individual study course consisting of one or more regular three-week modules is also an option. The short courses planned for 2004 are as follows:

Geo-information Infrastructure and Core Data Providers

- Three-month course, January to March 2004
- Tuition fee € 2,250

Applications of Remote Sensing and GIS in Earth Resources and Environmental Geoscience**Part II: Advanced**

- Three-month course, January to April 2004
- Tuition fee € 2,250

Geographical Information Systems for Urban Planning, Land Administration and Infrastructure Management

- Seven-week course, February to March 2004
- Tuition fee € 1,400

Aeromagnetism, Gamma-Ray-Spectrometry and Gravity: Essential Tools for Geoscience Applications

- Three-month course, February to May 2004
- Tuition fee € 2,250

Remote Sensing and GIS Applications for Integrated Catchment and Water Management (ICWM)

- Three-month course, February to May 2004
- Tuition fee € 2,250

Geophysical Data Acquisition, Processing and Interpretation for Groundwater and Environmental Studies

- Three-month course, February to May 2004
- Tuition fee € 2,250

Groundwater Resources Monitoring, Evaluation and Modelling

- Three-month course, February to May 2004
- Tuition fee € 2,250

Spatial Decision Support Systems and Multicriteria Evaluation Techniques

- Three-week course, April 2004
- Tuition fee € 600

Spatial Information for Environmental Impact Assessment (EIA) and Strategic Environmental Assessment (SEA)

- One-month course, April 2004
- Tuition fee € 800

Advanced Use of Remote Sensing in Water Resource Management, Irrigation and Drainage

- Three-month course, April to June 2004
- Tuition fee € 2,250

Development of Organisations in a Geo-information Infrastructure Environment

- Six-week course, May to June 2004
- Tuition fee € 1,150

Database Handling in Earth Sciences: A Study Project through Survey Planning, Execution, Analysis and Reporting

- Three-month course, May to August 2004
- Tuition fee € 2,250

GIS and Remote Sensing for Environmental Planning and Management

- Three-month course, October to December 2004
- Tuition fee € 2,250

Principles of Spatial Data Handling: Databases, GIS and Remote Sensing

- Three-month course, October to December 2004
- Tuition fee € 2,250

Short tailor-made courses

For more information about short tailor-made training courses, please contact Bureau Project Services (e-mail: bps@itc.nl).
